RED CROSS WILL

FOOD ADMINISTRATION HAS A WAY TO PUNISH HOGGISH DEALERS AND HELP CHARITY ALONG, TOO.

The Red Cross has been made the beneficiary of the Federal Food Administration of Texas in the amount of certain excess profits, which accrued to a certain retail dealer in a very prosperous community of East Texas. When the dealer prepared his statement of profits and forwarded them to Washington, he was apprehensive that the 72 per cent and 75 per cent and 82 per cent shown in the instance of certain commodities might be regarded as "stepping a bit high," but he felt it were better to "out with the facts," and with this in usind so sent in his report.

A week after he mailed his report be received a letter from Washington, which was noticeable for its crispness and succinctness. The letter was not long, it was not in the least involved. It simply commented upon the splendid business the dealer had been successful in securing and then intimated that perhaps the very points raised in the letter should be of immediate concern to the Federal Food Administra-

Friday night the business man traveled to Houston. Early Saturday morning he appeared in the department of groceries of the Food Administration and waited very patiently until his time came for an audience. He admitted his transgression, said he had not meant to be in the wrong. that the thing just happened.

Convinced that the dealer was sorry, and acting upon the recommendation of Washington that where grocers show a desire to "do the right thing" they are to have the chance, the ad ministration informed the dealer that he might settle the whole matter by making out a check for the excess profits and give to the Red Cross, and that upon showing proof that he had so made amends for excessive profits. he would be restored to good standing.

The dealer, gratified at the decision, promised that he would straighten out the matter at once, took his departure for the piney woods and in a few days some Red Cross chapter will be the richer for a certain appreciable check on excess profits.

Good news bears repeating, and when it is confirmed after a long lapse of time, even if we hesitated to believe it at first hearing, we feel secure in accepting its truth now. The following experience of a San Antonio man is confirmed after three

Thos. W. Conaway, grocer, 517 S Hackberry St., San Antonio, Texas, says: "I was troubled by rheumatic pains and backache during damp weather or when I had caught a cold. I was on my feet a good deal and had to do quite heavy lifting occasionally and I think it helped to bring on the trouble. I began taking Doan's Kidney Pills, and they helped told others about Doan's and am always glad to say a good word for 13, 1913).

No Trouble Since.

On June 4, 1917, Mr. Conaway said: I first publicly recommended Doan's Kidney Pills in 1913 and I am pleased to say I have had no return of backache or other kidney trouble since Doan's cured me."

DEFEAT BACKACHE AND KIDNEY TROUBLE WITH ANURIC.

Many people in Texas, as elsewhere, have suffered from rheumatism and kidney trouble and have found Anuric to be the most successful remedy to overcome these painful and dangerous ailments.

The lucky persons are those who have suffered, but who are now well because they heeded Nature's warning signal in time to correct their trouble with that wonderful new discovery of Dr. Pierce's, called "Anuric." Humble teachers sometimes impart valuable lessons and striking results sometimes come from what look like slovenly methods. The wise man will profit wherever he can regardless of the source of the knowledge. Any methods or practices, therefore, which produced a yield of corn in 1917 in Texas, when we fell 52,164,000 bushels below the production of 1916, and where we seldom if ever produce as much corn as the State consumes, is worthy of careful and thoughtful study.

Mertiano Garza, a Mexican farmer residing in Jim Hogg County, where the rainfall in 1917 ranged from 11 inches in some sections to only 7.79 inches at Hebbronville, the county seat, flat broke his land in the fall of 1917. He left it rough, because it was dry, and because, being of a sandy nature, it blows more or less. In February he bedded with a middle buster, throwing up a big ridge of absolutely dry dirt. A moderate shower gathered sufficient moisture in this deep waterfurrow left by the middle buster for him to plant soon after bedding. It be gan to dry out so rapidly that the very life of the crop seemed threatened while it was yet coming up. At this stage, he took a heavy drag and ran over the high, dry ridges, dragging a is the best medicine on the market quantity of finely pulverized, dry dirt down on the sprouting corn. The corn lived and struggled through this fine mulch and grew. Thereafter, following each shower that gathered in the water furrow or whenever his corn showed signs of suffering for rain, he ran this heavy drag over the high ridges, bringing more fine, dry dirt a-Burdened with grief over the recent round his corn, bringing the ground trating and scorching effect of the sun's too large and the ridges were too low F. men had been killed in the Gigantic Battle of Flanders there came an announcement from the United States Food Administrator that the wheat-flour product ration of America had to be cut exactly is two, if America was to fulfill her obligation to sustain the Allee; and to sustain her own morale at home.

This means that where we were using 42,000,000 bushels of

sheat a month, we are now to use 21,000,000

Prior to Washington's order reducing the American rations one half on wheat flour products Texas had adopted the plan of six pounds to the individual per month; and the stores of the State were designated as the commissary and the check. The request for a State consumption applied less to Texas than

nies in the Union, as the sir-pound basis had virtually placed the Teres on the half ration.

NOW: If every Texan will do his and her part and remain sheclutely within the requirements of the Administration, to use not more, and, if possible, considerable less than the six pounds. WE SHALL HAVE SUFFICIENT FLOUR TO CARRY US THROUGH TO THE NEW CROP.

It's worth trying, isn't it? And the answer is that day after day entire communities are adopting a complete ration basis on flour-even to the extent of a card.

If all communities place themselves on a voluntary ration of six pounds, and police themselves, without having to be policed by the dealer-WE WILL GO OVER THE TOP

"The needed saving of wheat placed the Food Administration wholly dependent upon the voluntary assistance of the American people."

Herbert Hoover. U. S. Food Administrator

THE GREAT WAR HAS MADE CIGARETTES A NECESSITY.

"Our boys must have their smokes. Send them cigarettes!" This is a familiar appeal now to all of us.

Among those most in demand is the now famous "toasted" cigarette-LUCKY STRIKE. Thousands of this favorite brand have been shipped to France. There is something homelike and friendly to the boys in the eight of the familiar green packages with the red circle.

This homelike, appetizing quality of the LUCKY STRIKE cigarette is largely due to the fact that the Burley tobacco used in making it has been toasted. "It's toasted" was the "slogan" that made a great success of LUCKY STRIKE in less than a year. Now the American Tobacco Co. is making 15 million LUCKY STRIKE Cigarettes a day.

A good part of this immense production is making its way across the water to cheer our boys.

Earful of Suggestions for Boys Back Home.

.....................

[The following is taken out of a paper, 'The Stars and Stripes', printed in France for our soldier boys, and was sent by a Hondo boy over there to his parents here with the request of publi-cation in the Anvil Herald.]

Some of us have been over here a good eight months and more. Most of us have been over for at least half that time. The rest of us have been over here for varying amounts of time, and all of us long enough to be in a position to hand you a little friendly advice about how to prepare for the trip, what to expect over here, and what not to expect. Here, then, are a few hunches from some old and seasoned campaigners:

Throw away your "parley-voo" books and forget all the French the Y. M. has been teaching you in your cantonment huts in winter. You won't need it. We have got the natives so well acquainted with United States now that they understand everything we say even when we get unduly accurate on time you'll get at least half of what 19:8:

Begin to take baths right now. If you've got about six weeks before sailing time, start in to take one bath every day and two on Sunday, and average of one a week for a year, which is the minimum prescriped by regulations. Baths in France are as this 4th day of April, 1918. hard to find as celebrators of Yom Kippur in an A.O.H. convention; so bathe while the bathing is good and handy. Write those letters now - while you

have time. Date them all well ahead and pack them neatly in your haversack. Then, when you get over here, your correspondence won't interfere with your touring. Don't try to be original, people don't like it. Besides, in the army individuality is a sin.

Pack all the chocolate, American cigarettes, smoking and eating tobacco and matches in your barrack bag that you can muster. Those commodities are rarer over here than minor league kings with steady jobs.

Get used to mud. Once up front you will live for the most part in dugouts. To get used to dugout air, spend as much of your leave time as possible in packed movie bouses, subways, Bohemian restaurants etc. A combination of all of them will inoculate you pretty securely against the essence of the

Get used to night shifts. Holding a sector is nt a day job, because daylight is too public for the work you have to do. Get the habit of sleeping in the afternoon, and of getting up before

Have your feet, teeth and eyes thoroughly looked after before you come over. See your last musical comedy, dance your last dance and eat your last pie and doughnuts. But don't, when you come over here, start to tell us about them, or we'll bean you!

Come on over, the going is fine! Yours till the Boche bust,

Dead, yes dead, do we call him: Paul, oh! must this be you! A flower faded and vanished, A heart that was tender and true.

Gone, yes gone! he has left us. Paul, forever we did part; Joy or sorrow does always come, Sorrow for us is very hard. .

True, yes true, he was to all Smiles forever upon his face, Sorrowful we looked upon him. e'er was given his resting place.

Lonely the house and sad the home, Since our dear one has gone; But oh! a brighter house than ours In heaven is now his own.

A precious one from us has gone, A voice we loved is stilled. A place is vacant it our home Which never can be filled.

Dearest Paul, thou hast left us, And our loss we deeply feel; But 'tis God that has bereft us, He can all our sorrows heal.

Left us! yes, forever more, But we hope to to meet our loved one On that bright and happy shore. FROM A FRIEND.

YES! LIFT A CORN OFF WITHOUT PAIN!

Cincinnati authority tells how to dry up a corn or callus so it lifts off with fingers.

You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezone applied directly on a tender, aching corn or callus, stops soreness at once and soon the corn or hardened callus loosens so it can be

lifted out, root and all, without pain. A small bottle of freezone cost very little at any drug store, but will positively take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to irritate the surrounding skin.

If your druggist hasn't any freezone tell him to get a small bottle for you from his wholesale drug bouse. It is fine stuff and acts like a charm every

WHEAT NOW STORED BE MADE TO OFFSET A GAINED BY GERMANY

Germany has now access to Ukraine, the granary of Europe. She has not acquired complete control of Ukraine, nor can she count on a 1918 crop, because of famine and disorder in that land; but in 1919. with her faculty of making subservient nations do her bidding, she can secure wheat enough

to continue a gigantic offensive; and the only thing that can offset that offensive to any great degree is the releasing by farmers in North Texas of 500,000 bushels of wheat and placing it at the disposition of the Nation at once.

Thos. L. Bradford, District Administrator for the First District, recently unearthed 100,000 bushels of wheat in three counties of the Dallas district which farmers were holding. When it was explained to these farmers that holding of wheat when the very need of it on the western front in Europe would be as determining a factor in withstanding the Hindenburg Drive, and all the subsequent drives of the most powerful army that the world has ever seen—THEY TOOK THE GRAIN FROM ITS STOREHOUSES AND MADE IT AVAILABLE for the people of Texas, who in turn had sent their own wheat for home consumption to the steamers with empty holds waiting in American ports to carry relief to the Allies.

Ukraine comprises one-sixth of European Russia in area, but contains 32 per cent of all farm lands. Of this total area 53 per cent is farmed. This is a higher percentage than any other European country with the exception of France, where 56 per cent of the total area is cultivated. The production of wheat, rye and bar-

ley in Ukraine was between 600,000,000 and 700,000,000 bushels per year, or one-third of the entire production of Russia. Will we let GERMANY gain

the enormous wheat supply to boost her own strength and let Texas wheat remain hoarded on farms when the holding back is seeping the strength and vigor of army, navy and nation; and the army, navy and peoples of the nations associated with us in war?

AMERICA MUST TAKE THE SOB FROM BELGIAN THROATS WITH BREAD.

"I was in India during their awful famine some years ago, said the Honorable Everett Colby of New Jersey, one of the most prominent attorneys of the State and former candidate for governor, who was a member of the United States Food Administration Commission to Europe, while on a tour of Texas recently. "There for the first time I saw the look in the eyes and heard the cry in the throats of starving children. There is nothing like it in all creation. There is no other look in the eyes of God's created beings that so tears the heart. There is no other sound uttered by any of God's creatures that so wrings the soul of men as that look and cry of starving people.

"Unless we keep a larger and larger volume of wheat flowing to France and Belgium than we have sent there thus far, that look and that cry from the eyes and throats of children 'over there' will reach us in smug, contented, well-fed America."

"The bread ration of the French soldier was about 25 ounces in the first years of the war. This has now been cut to 21 ounces. The bread ration of the civilian population has been most severely cut; they are now on individual bread cards allowing only about 10 ounces a day, barely one-third the average daily bread consumption of the French peasant or workman be-M. GIRLS! WHITEN YOUR SKIN

Make a beauty lotion for a few cents to remove tan, freckles, sallowness.

Your grocer has the lemons and any drug store or toilet counter will supply you with three ounces of orchard white for a few cents. Squeeze the juice of two fresh lemons into a bottle, then put in the orchard white and shake well. This makes a quarter pint of the very best lemon skin whitener and complexion beautifier known. Massage this fragrant, creamy lotion daily into the face, neck, arms and hands and just see how freekles, tan, sallowness, redness and roughness disappear and how smooth, soft and clear the skin becomes. Yes! It is harmless, and the beautiful results will surprise you.

WORK OF RED CROSS IS DESPERATELY NEEDED

It Is Up to the Civil Population to Determine Length of the War, George W. Simmons Says.

It is right up to the civil population of the United States to determine the

length of the war. This is the stirring message sent to this country and particularly to the people of the Southwest by George W. Simmons, manager of the Southwestern Division of the American Red Cross, who is in France on a tour of observation for the War Council of that organization.

Simmons has been at the front with the American forces; he has seen what the boys from the Southwest and other portions of the country are doing; he has seen the work of the Red Cross "over there" and he sends back the message that if the people of the whole United States only will realise that this is a war of nations, not of armies; remember that the American army and navy will do their part, then we can make sure of a victory for America and her allies by acting as a nation, thinking as a nation, fighting as a nation. If we do that, Simmons says in his message to the Southwestern Division of the Red Cross, America will be the deciding factor in the

Nothing else matters if we do not win the war, Simmons says in a final appeal for harder Red Cross work and more ships with which to transport our men and supplies and munitions.

WHAT RED CROSS GIVES TO HOSPITAL PATIENTS

The following are the contents of a Red Cross "patient equipment" and a Red Cross comfort bag. These are given each patient upon his entrance into a Red Cross hospital:

Patient's Equipment-Six shirts, four pillow cases, two hot-water bags, three suits pajamas, two pairs bed socks, four hospital shirts, four pairs socks, one pair slippers, one bathrobe, three washrags, four face towels, two bath towels.

Comfort Bags-One tube tooth paste, one toothbrush, one cake soap. three shirt studs, one spool black thread, one spool white thread, one package needles, one thimble, six clothes buttons, 16 pins, four safety pins, one handkerchief, one pipe, one pencil, one pad paper, six envelopes.

WORKERS GUARD SECRETS

Home Service workers for the Red Cross naturally learn much of the private affairs of those whom they assist. They guard these secrets closely and never talk or gossip about matters that concern them only in an official way. Instructions on this point are explicit and emphatic. A recent communication says:

"How long would your physician last in your community if WITH LEMON JUICE one person the confidential, private information his patients had revealed to him? As a Home Service worker you are, in a sense, a physician to your families; therefore, take heed and reveal not a thing! Keep the trust they give you and hold sacred the intimate family matters they tell you about. You absolutely must do it!"

A GOOD CITIZEN

A GOOD CITIZEN is one who supports his government in trying times ke these now confronting us, and who joes it without reservation.

THE SOUTHERN PACIFIC LINES! are endeavoring to do their share, and to maintain their obligations to the Tovernment and to the people with justice to both.

We want the co-operation of our patrons in increasing the efficiency of our service in every direction, for only oy co-ordinating our efforts and by a sympathetic support of men and measures can American institutions succeed and the American flag typify a freedom, in support of which we are now preparing to send our youth to the firing line in Belgium and France.
